DETAILED ACTION

Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: Inaba in combination with Siedlik teach all of the limitations except that snap-in cluster attachment allows connections to the rear of the cluster housing before final positioning and attachment within said IP retainer without requiring IP retainer guide channels and corresponding cluster guides as in the claimed combination. Furthermore there is no evidence in the prior art making this modification obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
